

Pets Stop Here Rescue, Inc

5412 West Ridge Road, Spencerport, NY 14559

Directions

Thank you for your interest in adopting/fostering a dog from Pets Stop Here Rescue. In order to complete your application we need a few things from you. Please contact me every time you finish a part of the process.

Part 1: Contact Vet

- Please be sure to contact the vet immediately and tell them to disclose information to anyone from Pets Stop Here Rescue.

Part 2: Contact References

- Please get us the emails of the references listed if you did not put them in the original application. You **MUST** have 2 references in order to proceed.

Part 3: Home Check

To do this you will have to do 5 DIFFERENT videos. *It can not be one large video and must be 5 different videos in order to send to us via email or text.*

1. Start outside
 - a. Show the front street/neighborhood view- state the speed limit, type of street, neighborhood characteristics (a lot of dogs in neighborhood, a lot of kids, etc)
 - i. How will the dog get exercise daily?
 - b. Go outback and walk the fence line- We must be able to see the fence well from start to end. If it's hard to see mention what type of fence each part is and approximate height
 - i. Show the yard and also how the dog will get outback
 - ii. Are there other dogs on other sides of the fence? - make note of which sides, how many, and how they act.
2. Go into the garage, only if the dog can get in by itself somehow, make note of how you get into the garage from the house
 - a. Looking to make sure there is nothing toxic at dog level that it could get into

3. Walk the first floor of your house showing every room slowly
 - a. Quickly introduce all pets in house at some point during the walk through
 - b. Make note of the following**
 - i. Where will each dog eat? (They should be split a good distance)
 - ii. Are you against crate training/how well do you know crate training?
Where will the crate be? (Must be out of direct sunlight and vents)
 - iii. Can the dog be on furniture?
 - iv. Where will the dog sleep at night?
 - v. Where will the dog be when left alone during day?

4. Walk down to the basement
 - a. If there is a door leading down- Will it remain shut at all times so the dog can't get down there alone? - if there is no door think about using a baby gate to keep the dog from going down there
 - b. Show the basement making note of anything at dog level
 - i. Mainly looking for small things and hazardous things (detergent, soaps, etc) at dog level that they can get into

5. Walk upstairs and show the upstairs rooms
 - a. If there is a door leading up- Will it remain shut at all times so the dog can't go up there alone? - if no door think about using a baby gate to keep the dog from going up there
 - b. Think about the fact that the dog could get up there and when not in eyesight may go to the bathroom
